

Installing TestNG Plugin for Eclipse

Installing TestNG Plugin For Eclipse IDE

TestNG - Download Current Release

testng.org/doc/download.html

```
repositories {
    maven {
        url 'https://oss.sonatype.org/content/repositories/snapshots'
    }
}
```

Eclipse plug-in

Java 1.7+ is required for running the TestNG for Eclipse plug-in.

Eclipse 4.2 and above is required. Eclipse 3.x is NOT supported any more, please update your Eclipse to 4.2 or above.

You can use either the Eclipse Marketplace or the update site:

Install via Eclipse Marketplace

Go to the TestNG page on the Eclipse Market Place and drag the icon called "Install" onto your workspace.

Install from update site

- Select **Help / Install New Software...**
- Enter the update site URL in "Work with:" field:
 - Update site for release: <https://dl.bintray.com/testng-team/testng-eclipse-release/>.
- Make sure the check box next to URL is checked and click **Next**.
- Eclipse will then guide you through the process.

You can also install older versions of the plug-ins [here](#). Note that the URL's on this page are update sites as well, **not** direct download links.

Build TestNG from source code

TestNG is also hosted on GitHub, where you can download the source and build the distribution yourself:

```
$ git clone git://github.com/cbeust/testng.git
$ cd testng
$ ./build-with-gradle
```

You will then find the jar file in the target directory

Build the TestNG Eclipse Plugin from source code

TestNG Eclipse Plugin is hosted on GitHub, you can download the source code and build by yourself.
